

Developing *and* Implementing an Outward Mindset Facilitator Training

In-person facilitated session | 3 days (21+ hrs) of content

Overview

The Arbinger facilitator training program is an intensive workshop that explores the breadth and depth of Arbinger's groundbreaking work. This course equips participants with a deep understanding of

Arbinger's material, preparing them to deliver this material within their organisation. Arbinger's training has been designed to pierce the veil of denial and resistance within organisation, increase collaboration and the achievement of the organisation's most important goals. This program equips the facilitator with the tools and frameworks to carry out a widespread application of Arbinger's principles. Upon successful completion of the workshop, facilitators are certified to utilise the Arbinger training and implementation material in their employing organisation only.

Workshop Format

This programme equips participants with a deep understanding of Arbinger's material, preparing participants to deliver this material within their own organisations. Because

Arbinger's work is a complete model rather than a compilation of ideas, a significant dimension of the training is learning to be able to comprehend and deliver all of the principles as elements of a complete framework in a logically coherent manner.

An Arbinger-certified facilitator will help participants learn to facilitate each of the individual sections of Arbinger's *Developing and Implementing an Outward Mindset* Two Day Workshop by going through conceptual overviews of the sections, demonstrating how to facilitate, discussing key points and issues, and working through participant reviews and practices.

Key Objectives

Facilitator training helps participants learn:

- How to effectively facilitate Arbinger's core and implementation material
- How to facilitate applying Arbinger's core philosophy to the workplace
- How to ensure that as facilitators, they can invite an out-of-the-box space for participants
- How to help delegates apply the material to their key relationships and objective.

Target Audience

Leaders, managers, trainers and facilitators who have completed the *Developing and Implementing an Outward Mindset* Two-Day Workshop
